★ A Luxe By Kan: Rhode Skin Lip Case by Hailey Bieber

This one's a treasure trove of, from what we gather, authentic international products, many of which aren't available on the Tira-Nykaa-Sephora Trifecta. Starting with Hailey Bieber's viral bubble phone [case](#) with a built-in lip balm slot – what else do you need this summer!? - and ending with [Glossier's](#) solid perfume, we fell down a very expensive rabbit hole, filled with Rhode Skin peptide lip [tints](#), [Maison Margiela Replica](#), [Skims](#), [La Roche Posay](#), [Westman Atelier](#) and more. Expect a long-ish shipping time, ranging from 7 to 19 days.

Shop in India at www.luxebykan.com, [Instagram](#), free shipping over Rs 8k.

★ Acne Studios: Their First Fragrance

The Swedish fashion label's first ever fragrance, Wallpaper Magazine tells us, "[evokes the softness of a scarf](#)". We want to be wrapped up in this already. French perfume house Frédéric Malle is behind this rose-violet-peach skin perfume that's out later this month. Yes, the perfume's sorta pink.

★ Aesop: Ginger Therapy For Turbulent Flights

Everyone's favourite powder room beauty flex brand also does a lovely personal product. Roll the [Ginger Flight Therapy](#) on your pulse points during a turbulent voyage by air or sea to deal with nausea; to combat a particularly stressful day at the office; or to calm a stomach upset. It's a lightweight oil made with ginger root, lavender and geranium.

★ Atomicc Code: Grapefruit Home Fragrance

Our favourite new Indian brand to gift, Atomicc Code's candles, home fragrances and incense sticks are beautiful inside-out. Major points for packaging - [look how pretty!](#) - that doesn't carry expected Indian motifs, as well as for its formulations that aren't tripping all over jasmine. We love the Grapefruit-Bergamot-Rose Awaken combination found across their room [spray](#), incense [sticks](#) and voluptuous three-wick [candles](#). Everything is vegan, non-toxic and cruelty free.

Shop at atomicccode.com, [Instagram](#), Rs 1,700 for Calm Incense Sticks.

★ Awear: The Glass Skin Range

Awear's consideration comes across not only in its skincare formulations (nature meets science in bio innovation) but also in the amazing micro details that make up its retail experience. For instance, the brand tells you how long a product will last (always useful considering our beauty budgets these days), and each purchase comes with a fun hack and fact about skincare. For instance, the [Superfood Enzyme Cleanser](#) can also be used as a purifying face mask when mixed with a cream or serum. This along with their very effective [Peptide Glow Serum](#) and [Dual Spot Treatment Serum](#) are part of the Glass Skin range that work to remove blemishes, pigmentation, and dullness. The very best thing about Awear is that its formulations are specially made for brown skin and keep in mind not just your skin health but overall skin wellness.

★ Batti & Co

[This much-like meringue looking treat](#) isn't in fact dessert, but soap whipped into a velvety texture and sold in jars. Not only do these fluffy body soaps feel luxe to the touch, they also make for fun gifts; our favourites: [Egyptian Cotton](#) and [Glacial Glow](#) made from glacial marine clay and sweet almond oil. While you fan out for these fluffies, also remember to pick up their [body butters and lotions](#) for after-shower slickness. One of our favourite pre-sleep rituals includes the Night Night lotion which combines the heady aroma of rose and lavender essential oils. We know we'll wake up on the right side of the bed tomorrow. Can't say the same about you.

Made in France and bottled in India (a spritz from the Ritz?), this contemporary fragrance house's [perfumes](#) cast a spell that is at once new and nostalgic. Much love, labour and storytelling goes into its making; and sourcing of fine ingredients from around the world: vetiver oil from Haiti, nutmeg from Indonesia, cinnamon from Sri Lanka, as well as indigenous ingredients from Coonoor, Kannauj, and Tirupati. The result is 8 beautifully crafted & packaged perfumes (3 for men, 3 for women, and 2 unisex). The tuberose-leather [Moiré](#), in our opinion, is one of the sexiest things to smell like, hot with cool currents of cardamom, cassis buds, sandalwood, apricot, and neroli.
